## REPORT

The **Typing Spectra Event** was conducted for degree students with the objective of enhancing their typing speed, accuracy, and overall digital competency. The event aimed to develop proper keyboard handling techniques, improve practical computer skills, and encourage students to participate in a healthy and skill-based competition. It also focused on preparing students for academic and professional tasks that require efficient computer usage, thereby strengthening their employability skills.

The event received active participation from students, who demonstrated improved typing performance and better keyboard familiarity. Participants gained confidence in completing computer-based tasks with greater efficiency and reduced errors. The activity helped students improve concentration, time management, and accuracy while typing. Overall, the event successfully created awareness about the importance of typing proficiency as an essential skill for academic growth and future career opportunities.
